

Stoney Creek Trail litter report: November, 2019

TOTALS for November vs AVERAGES (April to November)

Spawning salmon

Items of Interest this month:

Hot tub chemicals

Shaggy Mane mushroom

Forgotten trowel

Notes: The Coho salmon run started after heavy rain on Sunday the 17th raised the water level. A few tattered fish are still to be seen at the end of the month.

The cigarette butt count indicates that almost \$300 worth of cigarettes have been smoked on the Trail since last spring!
